Description:

According to the "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan," the term "overseas Chinese student" refers to a student of Chinese descent who has come to Taiwan to study, who was born and lived overseas until the present time, or who has been living overseas for six or more consecutive years in the immediate past and obtained permanent or long-term residency status overseas. However, a minimum of eight consecutive years of overseas residency is required if the person is applying to study in a university department of medicine, dentistry, or Chinese medicine in Taiwan.

The term "overseas" refers to countries or regions other than Mainland China, Hong Kong and Macau. The consecutive years of overseas residency means calendar years in each of which an overseas Chinese student has not spent more than 120 days in Taiwan. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days.
